Course Description

This training will review the definitions of abuse, neglect, and endangerment, as well as a complete review of the Illinois Abuse and Neglect Reporting Act. Policies and procedures as they relate to best practice in interviewing and investigating abuse and neglect will be explored. The training will focus on the Illinois Juvenile Court Act as it relates to officers taking custody of abused or neglected minors, duties of officers as it related to recognizing abuse and neglected children, and mandated reporter expectations. The Illinois Department of Children and Family Services hotline system will be discussed and best practice in working with IDCFS will be noted. The Abduction and the Amber Alert System will also be fully discussed and examined. Children are being taken against their will at epidemic rates in our country. This training will also address kidnapping, both parental and stranger; unlawful restraint of a child; child abduction; and methods used by predators to lure minors. The issue of human trafficking will be addressed, both domestically and internationally. Officers will be equipped with the skills to recognize the above crimes against children and how to interact with children and manage the law enforcement component.
