Course Description

This SFST refresher training program is intended for the purpose of refresher training only. This program is not a substitute for the NHTSA/IACP-approved DWI Detection and Standardized Field Sobriety Testing training.

The DWI Detection and Standardized Field Sobriety Testing (SFST) training curriculum prepares police officers and other qualified persons to conduct the SFSTs for use in DWI investigations. This training, developed under the auspices and direction of NHTSA and IACP, has experienced remarkable success since its inception in the early 1980s. Officers completing the training will be more proficient with the three batteries of tests: HGN, Walk and Turn, and One-Legged Stand.
