Course Description			
<p>The Illinois Freedom of Information Act (FOIA) provides that all records in the custody or possession of a public body are presumed to be open to inspection or copying. The Act further defines a “public record” as “documentary materials pertaining to the transaction of public business.” Additionally, the Illinois Public Records Act requires that all public bodies safeguard the records in their possession. The conflict between a public body’s need to keep their public records safe and secure and the public’s right to have access to those records is obvious. This presentation will analyze FOIA and provide guidance on how to respond to FOIA requests. It will analyze the role of the Illinois Attorney General’s Public Access Division and the part it plays in enforcing FOIA requirements. The goal of this presentation is to provide guidance to all FOIA Officers in performing the duties pursuant to the FOIA.</p>
