| <p>This training will discuss the importance of digital evidence and how it relates to the investigation of criminal offenses. This course is designed to be a beginner course. It will cover an overall perspective of the recognition and importance of digital evidence, cell towers, cell phones, and emerging technology considerations. By the end of the course, officers should be able to discuss how digital evidence relates to crimes by the recognition of various types of digital forums. In addition, officers will be able to preserve, seize, and secure evidence properly so the evidence is left intact in accordance with best forensic practices and it will not be suppressed in court. Many different legal aspects of digital aspects will also be discussed.</p> |                         |          |  |               |              |
