### Course Description

The "Patrol Rifle" has been adopted by many law enforcement agencies today as their primary long gun for general patrol applications. Advantages of the *Patrol Rifle* include superior ballistic performance, increased effective range, and greater accuracy. Proper training and proficiency measurement with the *Patrol Rifle*, prior to its duty deployment, is essential. This *basic* course is intended to prepare officers to deploy the *Patrol Rifle* in the "general patrol" environment. This is not a "Precision Rifle" or "Special Weapons and Tactics" course. Students must pass both a written and practical (*qualification*) test to successfully complete this *State Certified* course.
