| Course Description | | | |
| <p>This class is intended to familiarize students with the Miniaturized Red Dot pistol (MRDS) platform. Red Dot methodology will be discussed as well as gear and gun considerations. Specific drills are introduced to make the student more familiar and confident with a new sight system. The three major focal points will be: finding the dot on presentation, tracking the dot under recoil, and addressing dot specific malfunctions. How to zero your gun will be shown and explained. Low light shooting will also be addressed (range permitting) as it relates to RDS pistols. Officers will shoot several courses of fire and drills, including decision-making drills. Firearms Instructors will benefit from this class, as they will begin to see more and more of these guns showing up in classes. Instructors having a baseline understanding of the system will benefit their students. Students will shoot the State 30 round in-service qualification course.</p> | | | |
